

Dear Bright Beginnings NYC Parents,

We have had a wonderful May here at the preschool! The Friends have really enjoyed learning in the sun during our outdoor center activities and watching our community come to life with the nice weather. We are so excited to be trading in our coats for sunscreen! Let's take a look back at all of the things we've loved about May.

Preschool

Our classroom has been filled with lots of fun and adventure during our superhero theme! All of the friends have loved learning about their favorite comic book, real life, and animal heroes throughout the month. The Big Friends flew into this month by learning all about doctors and Clara Barton through counting and identifying the different tools inside of a medical bag. Next, the Friends dove right into our comic book superhero study by conducting a magic milk science experiment like Dr. Strange and matching aliens and planets using upper and lower case letters to explore Starlord's out of this

world abilities. The Friends also studied animal superheroes and measured how high Kao the super Kangaroo could jump. Along with our superhero learning, the Big Friends also blasted through our lower case alphabet with the letters c, d, e, and f! The Friends enjoyed creating disco balls for letter d, searching for lowercase cs outside, and jotting down our favorite things about our classmates during our f is for friend discussion.

Awesome work Big Friends!

The Little Friends had lots of high flying fun during May as well! The Little Friends began the month by learning all about the heroes in our community and firefighters by putting out shaving cream “fire” using a spray bottle. The Friends explored some of their favorite comic book and television heroes as well by threading a skyscraper with string like Spiderman and patterning our 2 super pups Chase and Rubble from Pawl Patrol. The kiddos also loved discovering how we can be Earth heroes like Captain Planet during our Recycle sort and why it is important to protect butterflies like our real life kid hero Aiden Wang through our Juice Taste Test Experiment. Adding to our superhero activities, the Little Friends have also been soaring through the alphabet covering the letters S, T, and U! Some of our favorite letter lessons this month included going on a Shopping Spree outside for letter S and sketching our favorite community trees for letter T. The Friends also had a blast making observations and predictions during our T is for Tomato Dissection and counting the raindrops around our umbrellas for letter U. Super work Little Friends!

We are ready to dive into our new theme for June: The Human Body! The Friends have been very curious about how our bodies move and grow. Throughout June, we will be exploring how to keep our bodies healthy, how booboos heal, and everything else in between! We're so excited to discover more about our bodies and how they work!

Housekeeping

There are a few important details to be aware of for the month of June. First, Bright Beginnings NYC will be holding our annual picture day for all students! The pictures will be taken in the South Bridge Towers Courtyard with their entire class and teachers. We will send more information and dates as soon as we have them. Come dressed to impress!

We will also be having an end of the year party for all students! There will be lots of fun activities and dancing to celebrate all of the hard work they have done throughout the school year. Although we still are unable to welcome parents into the school, we will be sure to send lots of Brightwheel pictures of the festivities! More information and dates will be shared as we move through June.

Finally, since we are entering our summer months, we would like to remind parents to apply sunscreen before school each morning and to send in an extra tube for reapplication throughout the day. We are ready to soak up the sun and all of the adventures summer has to bring!

That's a wrap for May! Along with looking forward to the summer days ahead, we also wanted to wish all of our Bright Beginnings NYC Fathers a very happy Father's Day! We appreciate everything that you do for the kiddos and our Bright Beginnings NYC Community as a whole. If you have any questions, comments, or ideas, please feel free to e-mail or catch us at the door anytime.

Sincerely,
Bright Beginnings NYC
